

CONSTITUTIONAL AMENDMENTS

I believe in amending the constitution by AMENDMENTS – not replacements. The project itself was titled the Constitutional Amendment process.

In fact, one amendment that I have been advocating for the Board to send to the Membership is that of Term Limits.

We need to reconvene the Committee to establish necessary individual Amendments to ensure a Separation of Powers, elected Judges, additional teeth for inappropriate conduct, Rights to Recall, Rights of Special Initiative, as well any other individual amendments identified to protect our Sovereignty and ensure productivity and accountability within OUR TRIBE.
